Photo non-contractuelle

## INTRODUCTION

The **DDH<sub>2</sub>** detector detects all CFC, HCFC and HFC refrigerants. The presence of a leak is signalled by an audible and visual alarm (light fitting). A digital display enables the leak output to be assessed in g/year. Functional and easy to use, the **DDH<sub>2</sub>** detector with automatic calibration is supplied in a protection case with replacement filters, batteries and mains adaptor.
